I know - that's a bummer. But it gives you a GREAT reason not to think about this stuff! Wait, on second thought, that's probably impossible! :)

Thanks so much for the blurb! Here's how the top page of the page looks right now. I assume the document would go after the blurb, right? Thanks so much!!

EPA Phase V Documents
Summary of Methods & Results (including Section A and B)

On (date), EPA is releasing its Phase V Sampling Event Summary of Results and Methods. This document provides the sampling methods and results from EPA's joint sampling event with the U.S. Geological Survey in April 2012. EPA sampled both deep monitoring wells, five domestic or stock wells, and one municipal well for the town of Pavillion. Included with EPA's Summary of Results as Section C is the USGS Administrative Report providing data for a replicate sample collected at Monitoring Well 02 for submittal to the USGS contract laboratory.

[Note to myself: this will be a single document that I will probably receive on Monday]

Section C: USGS Administrative Report

Contract Laboratory Results and Evaluation of Laboratory-Specific Quality Control Measures, U.S. EPA
Monitoring Well MW02, Pavillion, Wyoming, 2012

Appendix 1: Test America Laboratories' Electronic Chain of Custody
Appendix 2: USGS Contract Laboratory Data Review Worksheet
